

Certified Information Systems Security Professional (CISSP) Certification Training Course

Course Introduction

Learning Objectives

By the end of this lesson, you will be able to:

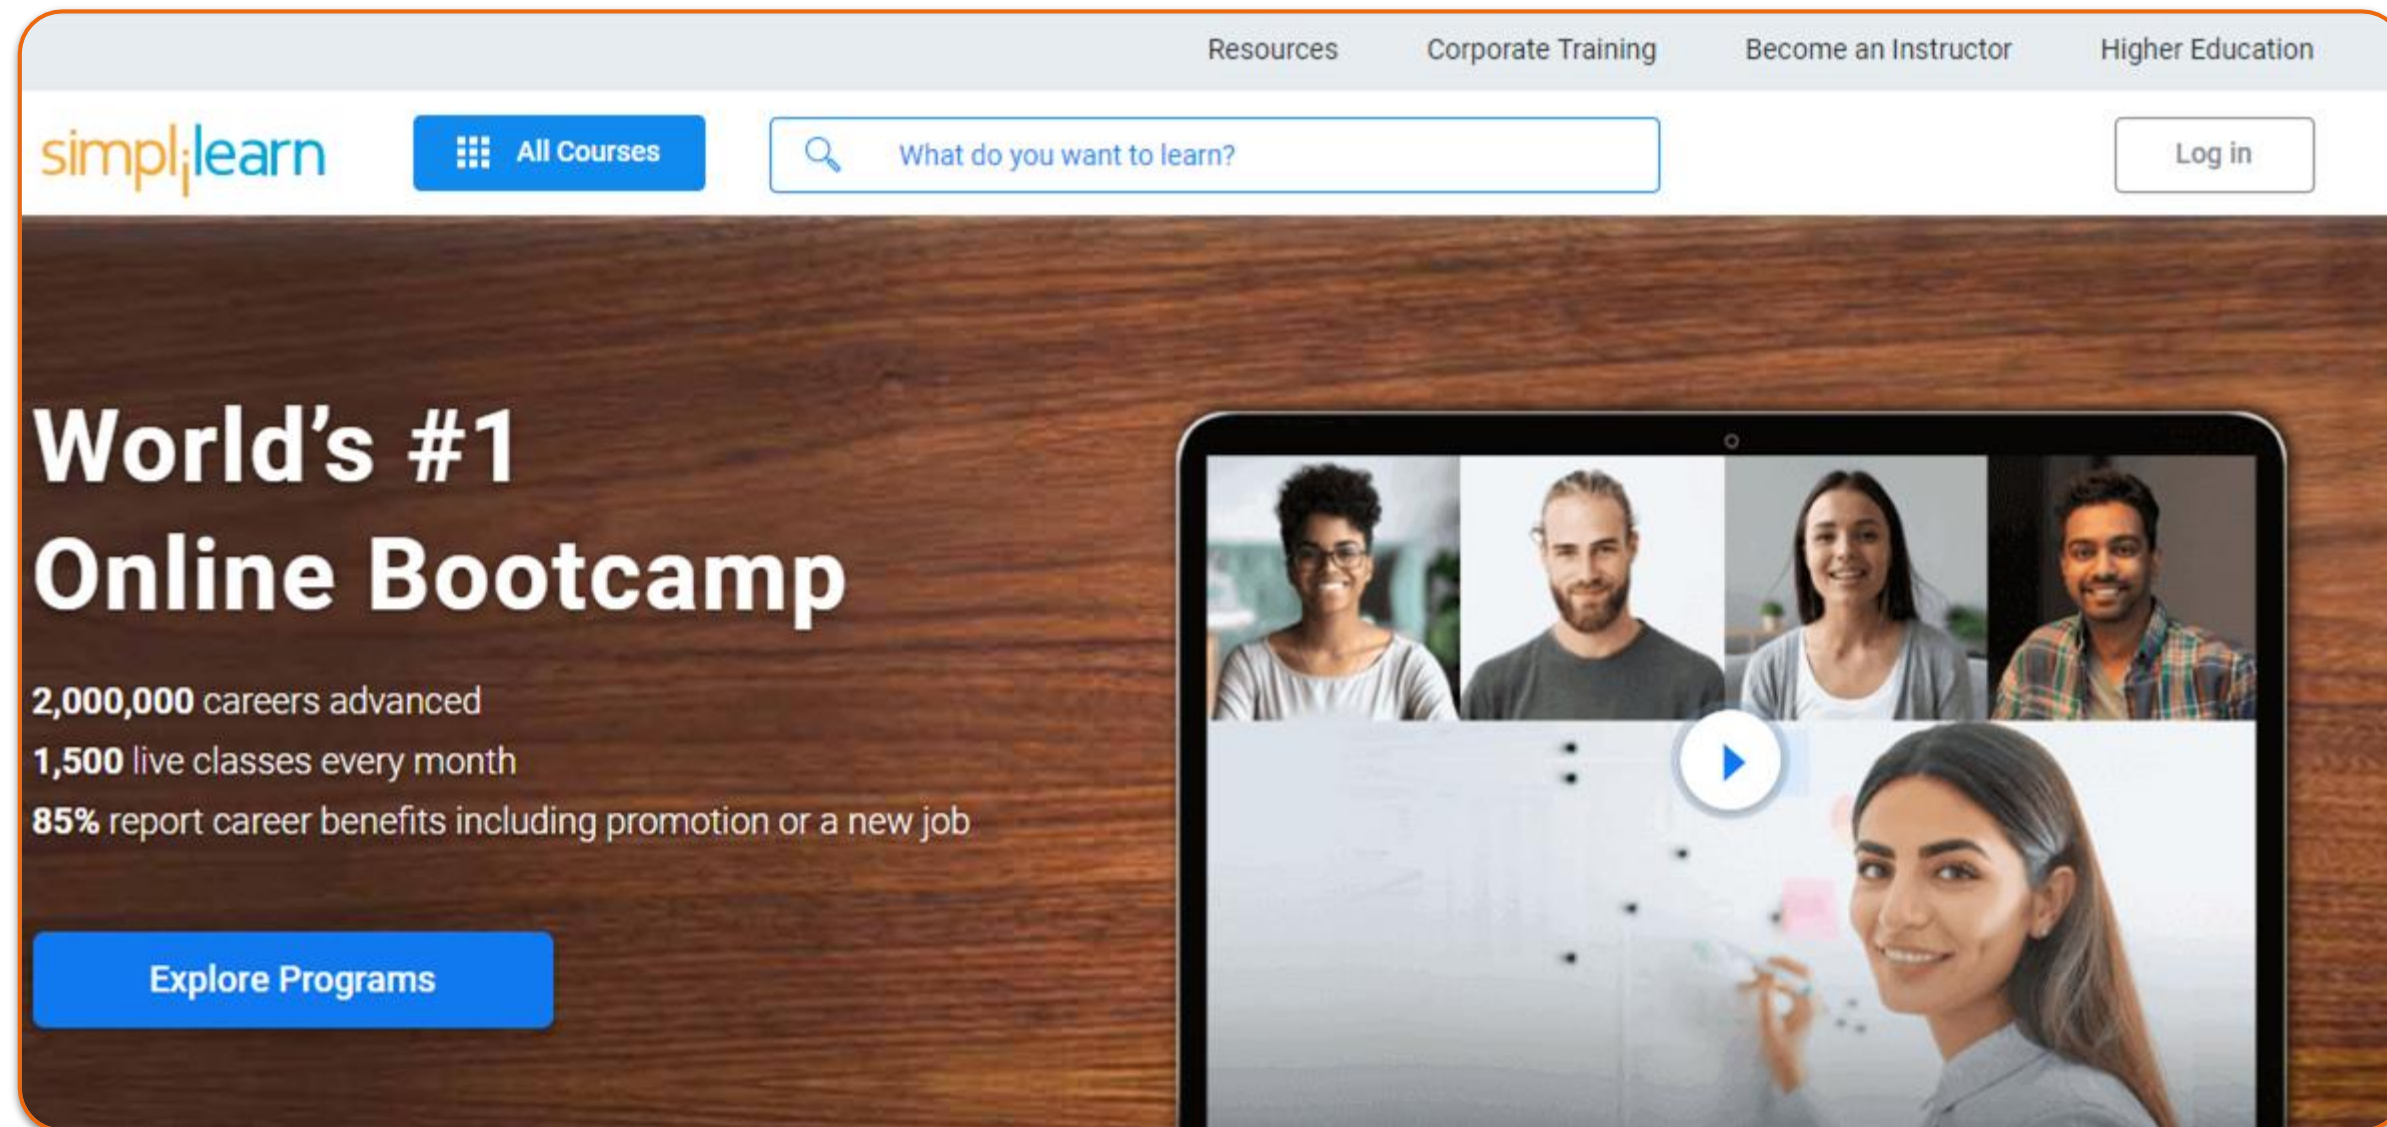

- Describe (ISC)²
- Describe CISSP®
- List the different domains of the (ISC)² CISSP®, Common Body of Knowledge (CBK)
- Identify the steps to certification
- Explain Computerized Adaptive Testing (CAT)
- Maintain the certification

About Simplilearn

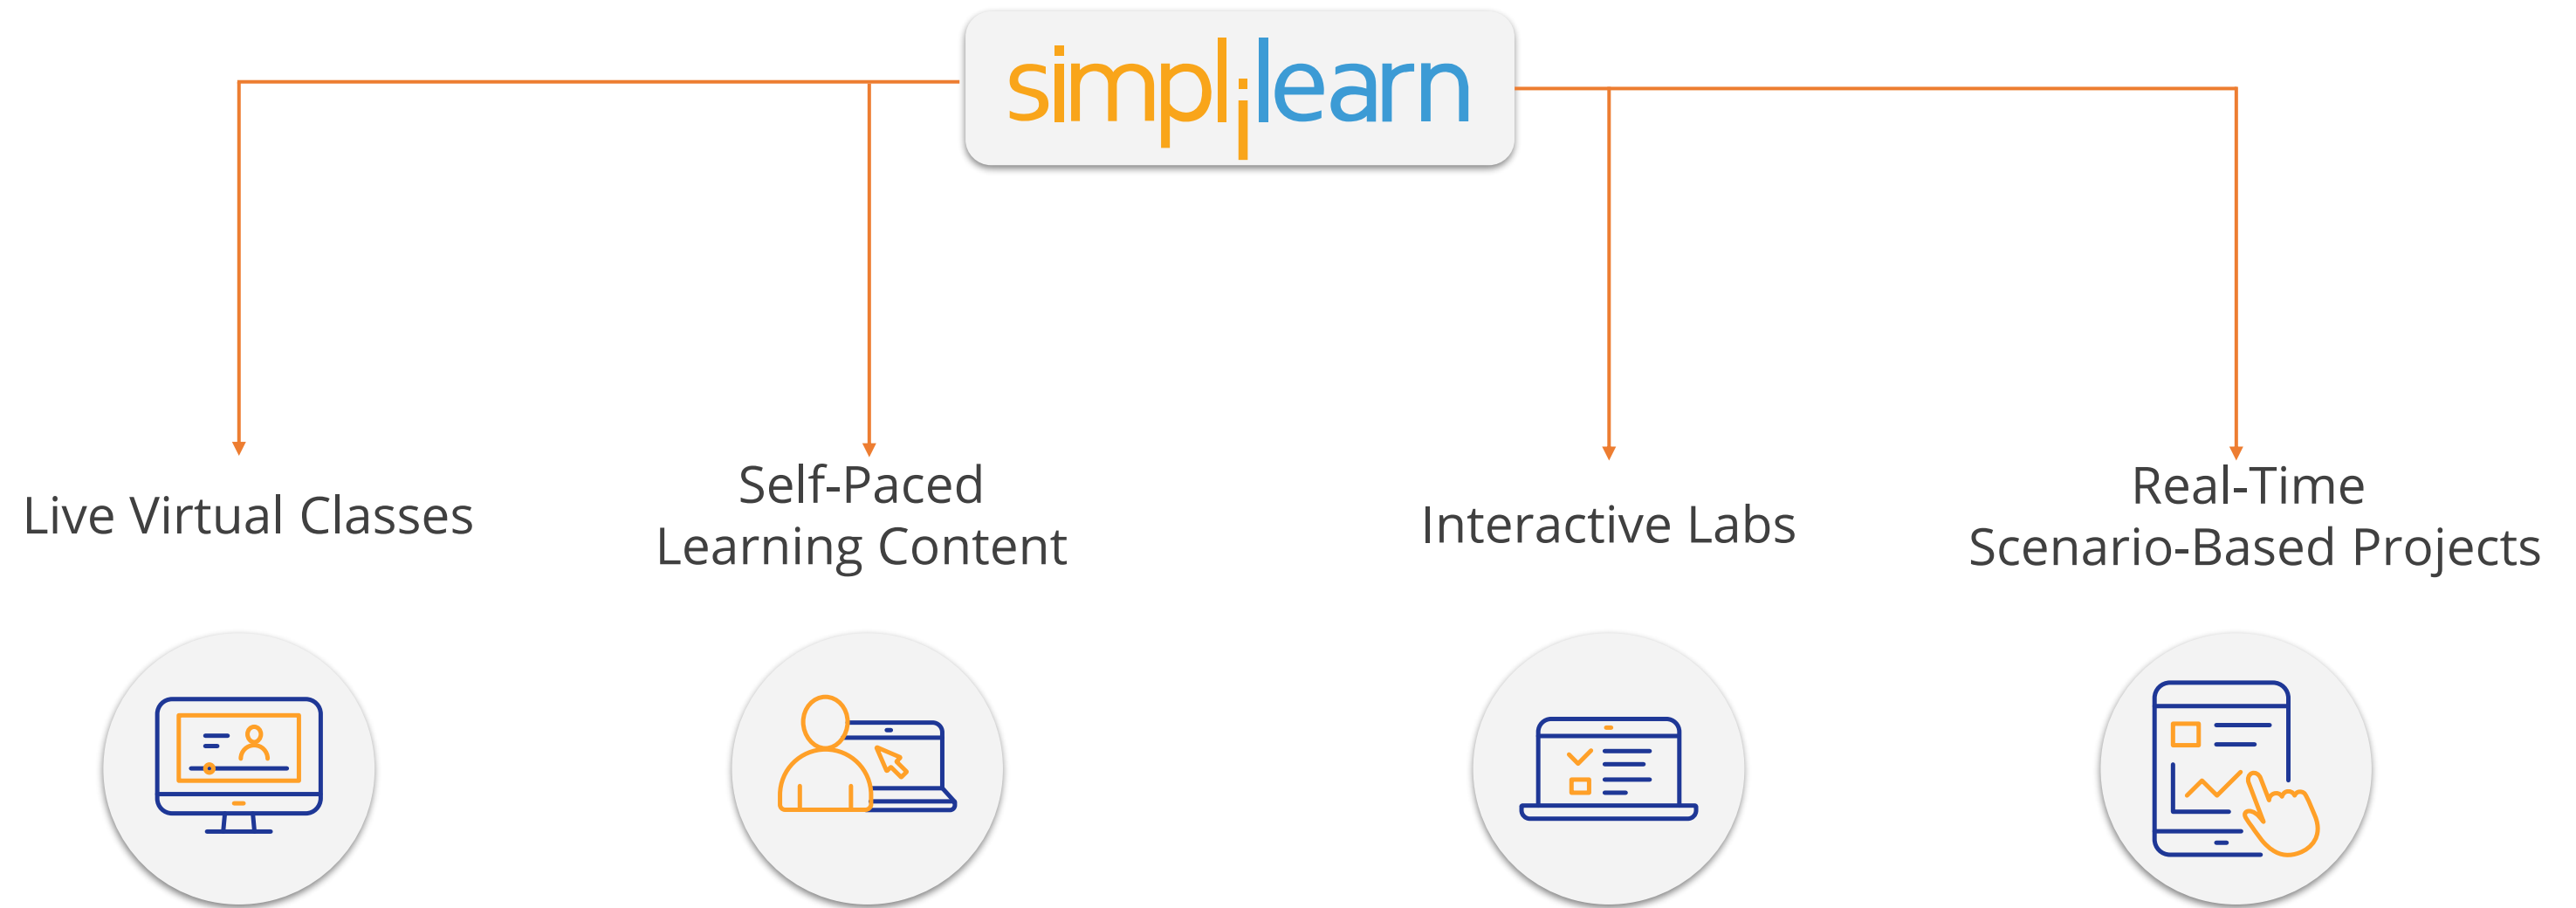

About Simplilearn

For over a decade now, Simplilearn is focused on digital economy skills.
Now, Simplilearn has become **World's #1 Online Bootcamp**.

About Simplilearn

At Simplilearn, we provide:

Introduction to (ISC)²

(ISC)²

- The International Information System Security Certification Consortium, or (ISC)², is a nonprofit organization that specializes in training and certifications for cybersecurity professionals.
- (ISC)² was founded in 1989 to meet the needs for standardization and certification in the cybersecurity industry.

Vision

Inspire a safe and secure cyber world

Mission

Support the (ISC)² members throughout their careers

(ISC)² Responsibilities

Create an impact on careers and advance the cybersecurity industry by providing globally recognized certifications

Maintain the Common Body of Knowledge (CBK) in the field of information systems security

Administer the certification exams

Oversee the ongoing accreditation of qualified certification candidates through continued education

CISSP Certification

CISSP

Certified Information Systems Security Professional, or CISSP®, is the most widely known certification offered by (ISC)².

- The CISSP® credential is an elite way to demonstrate your knowledge, advance your career, and become a member of a community of cybersecurity leaders.
- The CISSP exam tests the technical and managerial competence required from an experienced information security professional to effectively design, engineer, implement, and manage an organization's information security program within an ever-changing security landscape.

Systems Security
Professional

CISSP Features

CISSP® is gold standard,
vendor-neutral IT security
certification.

CISSP® designation was
accredited under the ANSI
ISO/IEC Standard
17024:2003.

CISSP® designation was
accredited under the ANSI
ISO/IEC Standard
17024:2003.

CISSP®: Domains

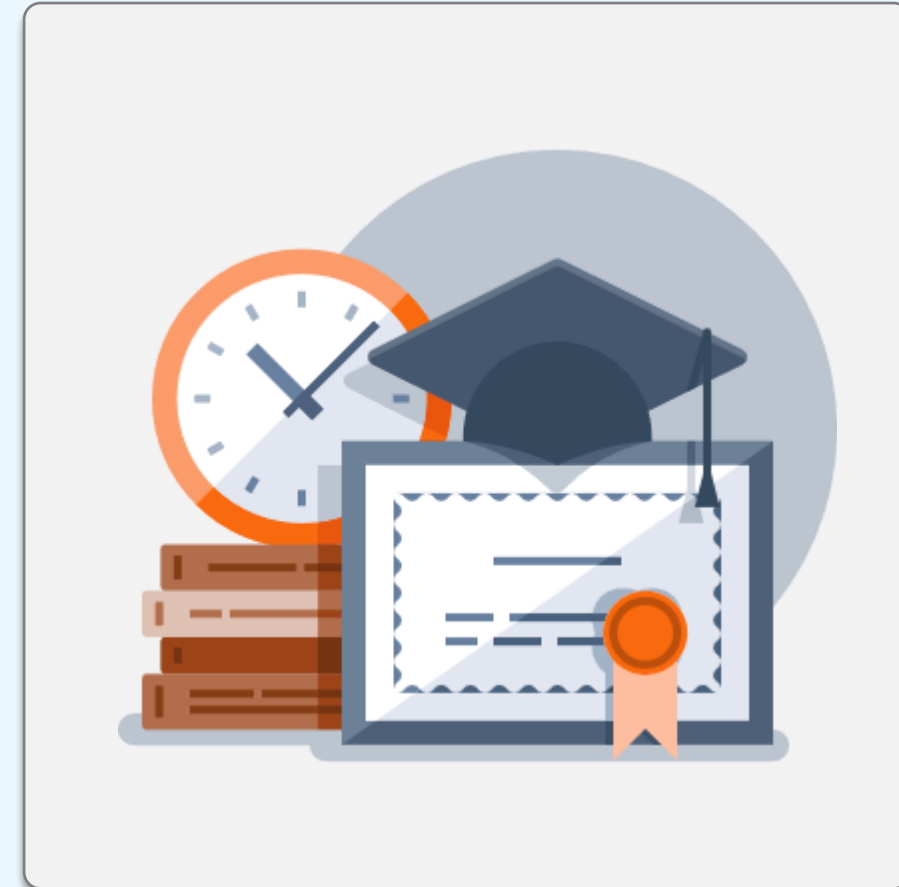

1	Security and Risk Management	15%	2	Asset Security	10%
3	Security Architecture and Engineering	13%	4	Communication and Network Security	13%
5	Identity and Access Management (IAM)	13%	6	Security Assessment and Testing	12%
7	Security Operations	13%	8	Software Development Security	11%

CISSP®: Steps to Certification

Meet CISSP Eligibility

To qualify for this cybersecurity certification, you must have:

- At least five years of cumulative, paid, full-time work experience in two or more of the eight domains of the (ISC)² CISSP Common Body of Knowledge (CBK)

CISSP®: Steps to Certification

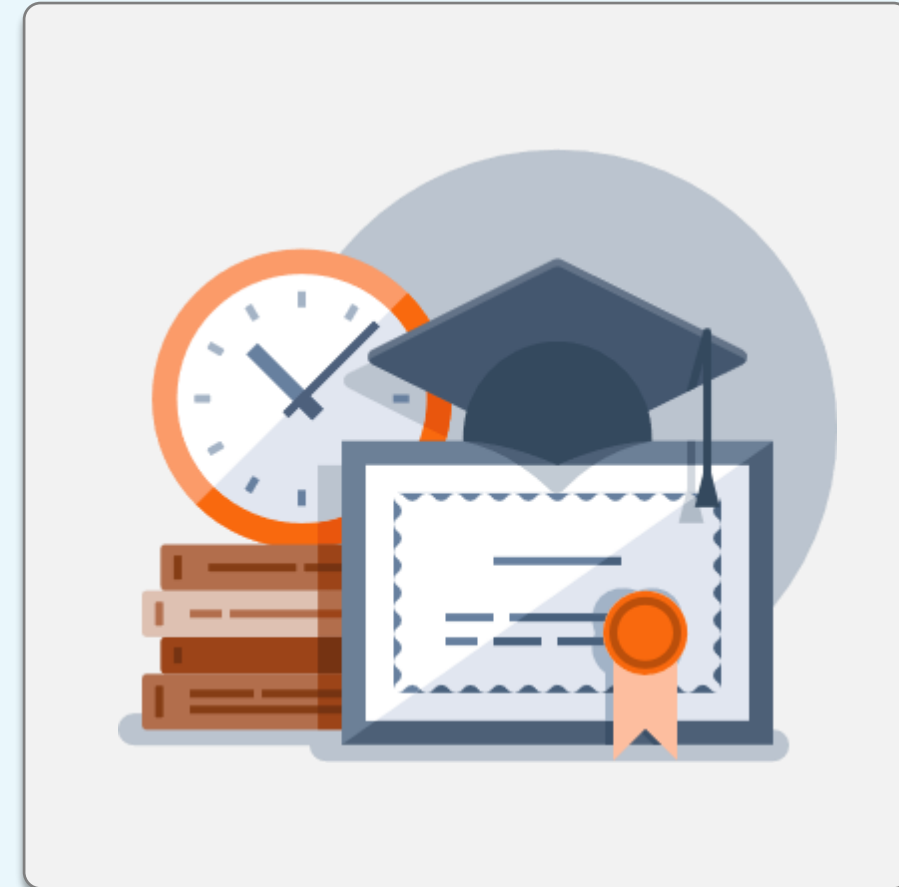

Meet CISSP Eligibility

Satisfy one year work experience requirement with:

- A four-year college degree
- Or an approved credential from the (ISC)2 approved list

In case of no experience:

- Pass the CISSP exam to earn an **Associate of (ISC)2** designation
- Earn the required work experience within six years

CISSP®: Steps to Certification

Register for Examination

Create account at Pearson VUE :

- Visit <http://pearsonvue.com/isc2/>
- Create a user account
- Select the nearest Pearson VUE testing center
- Pay the examination fee
- Schedule your examination

CISSP®: Steps to Certification

Pass the Examination

- Take the Computerized Adaptive Testing (CAT) exam
- Pass the exam with a scaled score of 700 points or greater

CISSP®: Steps to Certification

Get Endorsed

- Subscribe to the (ISC)² Code of Ethics
- Endorsement form must be completed and signed by an (ISC)² certified professional
- (ISC)² can endorse you if you can't find a certified individual
- Get endorsed within nine months from the date of examination

A percentage of the candidates who pass CISSP® examination and submit endorsements will be randomly subjected for audit and required to submit additional information, as required, for verification.
